

SEI Group Inc., awarded a five year GSA Energy Services Contract

This past November, SEI was awarded a five year GSA Energy Services Contract. This contract allows SEI to provide services to all government agencies in these areas: energy planning and strategies, energy choice analysis, metering services, resource efficiency management, building commissioning, risk management, and Homeland Security.

Mr. Eloy Torrez, President, SEI Group Inc., stated in a press release announcing the award "This contract represents a great opportunity for SEI in the energy technology business and it allows us to assist the Nation in the critical mission of energy savings and independence."
